

The Producers of Contender Asia in conjunction with Selangor Tourism are all set to bring

the world another muaythai reality TV show, fully sanctioned by the WMC.

16 of the worlds best middle weight fighters will travel to Malaysia to compete for the biggest prize money in the entire history of muaythai.

Week by week millions of people will be on the edge of their seats to follow the lives and dreams of these role model athletes from around the world. The audience will be in suspense every single episode as one by one the fighters will get eliminated leaving one victorious winner.

WHO WILL BE THE ONE?

All locations will be around beautiful Selangor in the heart of Malaysia, and July / August will see the last qualifying rounds to determine the last 4 spots.

The production will commence 4 weeks after the SportAccord Combat Games, as some of the top-tier fighters to be featured on the show have already qualified to fight for this crucially important martial arts event, patronized by the IOC. Naturally all the muaythai superstars will need a rest period after Beijing, in order to bring their best to what will be another history-making reality TV experience.

The fight and reality show will be broadcast in all 5 continents. Even the undercard fights will include top fighters from all around the world and will be telecasted LIVE all over Asia.

There can be only one
